[valentine/154579?WT.ac=search_item&WT.seg_1=search_item&WT.z_author=TimMcMorris](http://audiojungle.net/item/be-my-valentine/154579?WT.ac=search_item&WT.seg_1=search_item&WT.z_author=TimMcMorris)

Features:

- 10 Photo Holders + Cover Photo holder.
- 10 Text Holders.
- Customizable Texts color in a single click.
- Includes a Bonus version.

Instructions:

Please read the following instructions to customize this template according to your preference; I have organized and made this template easy to edit.

-To Modify the Front Cover Photo and Text-

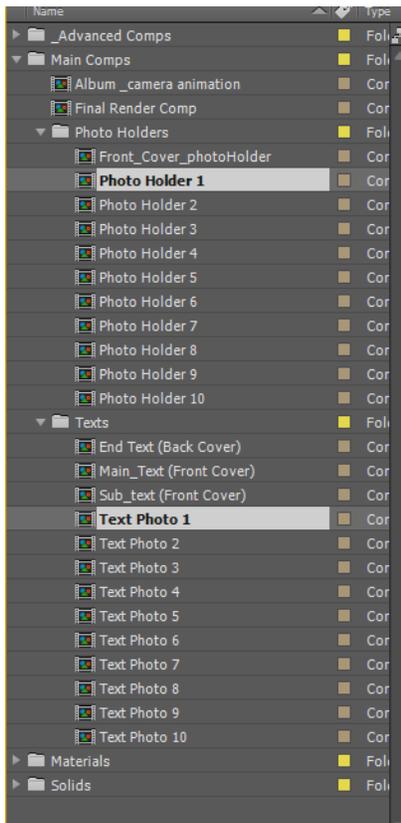

1. Open Comp named 'Front_Cover_photoHolder' – Place the Photo you choose, inside the comp and make sure the other layers are disabled or below your Photo.
2. Open Comp named 'Main_Text (Front Cover)' – Change the text and Font to your preference. Currently The Font Used is "*Janda as long as you love me*":
<http://www.dafont.com/janda-as-long-as-you-love-me.font>
3. Open Comp named 'Sub_Text (Front Cover)' – Change the text and Font to your preference. Currently The Font Used is "*Optimus Princeps*":
<http://www.dafont.com/optimusprinceps.font>

-To Modify The Photo and Text Holders-

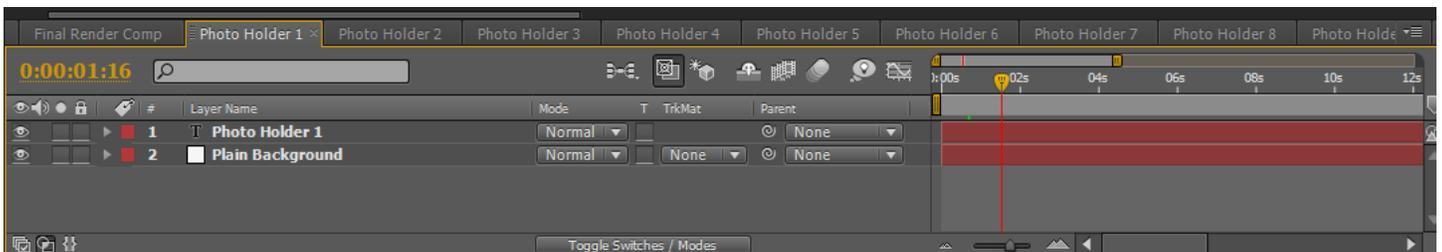

1. In order to Modify/Edit/Add Photos to any Photo Holder, First Open the respective photo holder comp from the project panel, then Place the photo you choose inside the comp and make sure it is above all the other layers or disable the other layers except the Photo you just added.
2. In order to change the Text near the photos, Please open the respective Text holder comp and make your change to the text or change fonts.

Ex: Adding photo and Text to Photo no.1

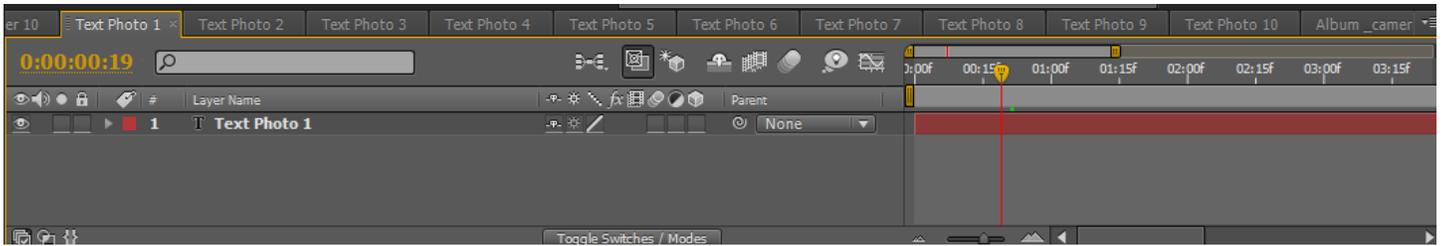

◆ Open Comp named “Photo Holder 1” and “Text Photo 1” (*ref.pic*)

◆ Import your Photo inside Project panel and add the Photo file inside comp “Photo Holder 1”

(Make sure the Photo you add is in the top most layer or just disable the other layers)

◆ To Change the text go to the comp “Text photo 1” and change the text to your preference.

◆ To render the final output please open “Final Render Comp” and render out your file.

-Edit The End Comp-

◆ Open comp named “End Text (Back Cover)”
And edit your Text.

-Single Click Text Color Change-

- ◆ Open comp named “Final Render Comp”
- ◆ Choose the 1st layer named “Text Color Control” and locate the “Effects panel” and find the Text color controller. (ref.pic)
- ◆ Change to the color you prefer.
- ◆ Render the final output.
