Hello my dear friend!

Thanks for buying my template.

Please read this help file.

If you have any questions - contact me on VideoHive.

1. Project Structure

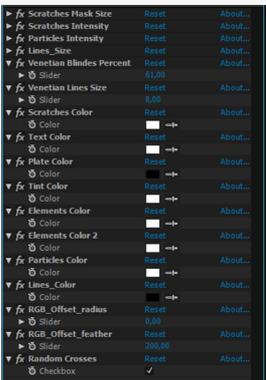

Project have well organized modular structure. There are 10 Scene. You can use all of them or delete unnecessary.

2. Photo Customization

At the Placeholders folder you can see all 22 photo compositions. Just Drag and Drop your Photo or Video into PH_N° composition.

3. Scene Controller

In Scene Controller you can change:

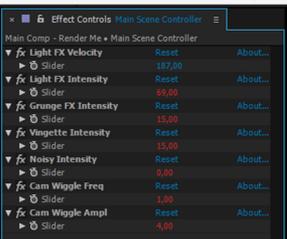

- 1)Text Colors
- 2)Scratches Color
- 3)Scratches Intensity
- 4)Glass Bluriness
- 5)Abberations Intensity
- 6)Scratches Mask Size
- 7)Elements Colors
- 8)Glitch Crosses ON/OFF

4. Scene Customization

Go to _SC_COMPOSITION! drag and drop your photo, write text, choose colors, move around. That's all!

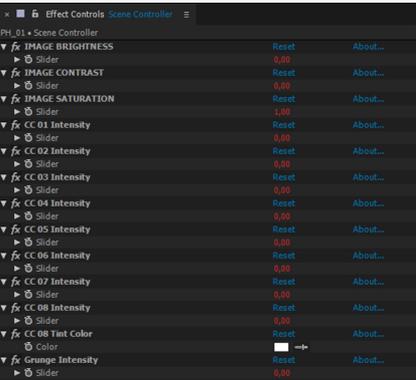

5. Main Comp Scene Controller

At the Main Comp - Render Me you can see Scene Controller. In this layer you can edit:

- 1)Light FX Velocity
- 2)Light FX Intensity
- 3)Grunge FX Intensity
- 4)Noisy Intensity
- 5)Lines Width
- 6)Camera Wiggle Parameters

6. Color Correction

In each scene you can see Scene Controller. In this Layer you can edit Color Correction. Just use Intensity of CC Presets.
