MUSIC (have to buy) :
http://audiojungle.net/item/night-in-montreal/1218635

NIGHT SOUND FX (Free for personnal and commercial use / Read license on link) :
http://www.freesound.org/people/alinmear/sounds/217252/

Installation :
- Close After Effects, install Fonts
- Buy and download music - unzip
- For the night sound fx, create an account and download file
- Put **all** Music and Sound FX files in **ASSETS/Music_and_SoundFX** folder
  (the 3 files in that folder are blank files to keep the sound edit in project active, you can replace them)
- Watch Vidéo Tutorial

Possible issues :
- After Effects message : «This project must converted» is normal.
- Issues with .mov files that won't open in after effects means you have a problem with your Quicktime
version, try to update or reinstall it. Other possible solution, open each .mov file in quicktime before
going in After Effects.

Thank you for buying my project, don't forget to post a **Review** ! ★ ★ ★ ★ ★
And don't forget to check the 2 other Lantern Wedding Galleries : **http://goo.gl/V0Hkq7**
